About Digital Fashion Pro & How It Works: [Design Your Own Clothing In Minutes, Super Easy to Learn & Use, Beginner Friendly, Professional Results, Helps With Getting Your Line Made & More!](#)

Digital Fashion Pro Fashion Design Software System is a tool for creating computer-aided design (CAD) digital fashion sketches, garment design, artwork and other elements related to the design of apparel, footwear and accessories. Digital Fashion Pro allows users to create industry standard digital apparel designs which are required at most fashion houses, by clothing manufacturers and throughout the design / manufacturing process. Plus It Is Super Easy to Get Going: Order, Receive, Install, Follow Training, Design! **Digital Fashion Pro is used worldwide** by countless clothing lines, popular labels, fashion designers, celebrity clients, beginners plus it is [taught in over 300+ Apparel Design Classes on the High School and College Level.](#)

Digital Fashion Pro is a complete fashion design system consisting of hundreds of clothing templates, digital fabrics, model poses, training course and a graphics program provided free of charge that when combined allows users to be able to create realistic looking fashion designs. All of the Digital Fashion Pro Templates can be modified so you are never just stuck with a template. You can change, modify, alter etc. any template so that you can easily create the exact vision that you have in your head. You can also incorporate artwork, logos, prints and more into your designs! With Digital Fashion Pro you are Guaranteed to be able to create your own designs regardless of skill level & drawing ability.

Digital Fashion Pro Can Also Help You With: [How to Start Your Own Clothing Line, Work With Manufacturers & Getting Your Line Sold In Stores](#)

Digital Fashion Pro Business Class or Higher can be used to create technical drawings such as the illustrations shown below. Technical Sketches along with regular fashion sketches are the foundation / first step in getting your clothing line made at a clothing factory. Digital Fashion Pro Sketches will help your manufacturer interpret your designs more accurately which makes for better quality of samples and production. Digital Fashion Pro + **Beyond the Basics Upgrade** (Spec Sheet & Technical Sketch Training) + Our **Fashion Business Center Upgrade** (Spec Sheet Templates) can help you create your tech packs that your manufacturer will need.

Our **Digital Fashion Pro Fashion Mogul Package** is our Total Package that can Help You Start, Design & Manufacturer Your Own Professional Clothing Line. It includes list of 500 manufacturing contacts. With this Clothing Line Start Up Kit you will learn how to make money off your fashion designs, work with manufacturers, freelance design and more! It trains you many critical elements of being a fashion designer / clothing line designer / fashion label owner. This package also teaches you the insider tips on successfully working with manufacturers and apparel retailers. Learn key information on how to get your line sold in stores. It is a must have!
